

### Interpretations of the Black Death – revision activity

Use the Black Death content overview document (also on the website) to help complete this activity. You need to read the interpretations (opinions) in the centre column and then find / add evidence that could be used to agree and disagree with each view point.

Evidence (own knowledge) that would agree with this view	Interpretation	Evidence (own knowledge) that could be used to disagree
	The Black Death was a significant disaster and led to significant change.	
	The Black Death was a disaster but was not really a significant cause of long term change	
	The Black Death was more positive in the long term and changed the lives of peasants for the better.
